

THE SUSTAINABLE COMMUNITY BUILDING: REFURBISHMENT vs NEW BUILD

A series of free debates to explore how to create more sustainable community buildings and better places for local people

What's the debate about?

The Glass-House and partner organisations will be holding a lively and interactive debate looking at the opportunities and challenges community organisations face when they take on the management and/or ownership of a community building.

The debate will go on to explore the impact of design decisions in the contexts of both new builds and refurbishments on social, economic, environmental and cultural sustainability.

Our speakers

David Tyler, Chief Exe, Community Matters

Charles Strang, Principal, Charles Alexander Strang Associates

Rob Hoon, Coordinator, Out of the Blue Arts & Education Trust
